

ville or town. At the present the place can host of all the essential institutions that form the basis of society and industry in every community. There is a public school, which serves the purpose of church, public hall and council chamber. There is a graining mill, large saw shop, implement warehouse and chipping mill, which in the near future will be enlarged into a flour mill. Four years ago the population of Edson was only here. Today over 300 families get their mail at the Edson post office. At present there is one mail a week but just as soon as the government road is completed from Edson south to Clyde and thence west to the Peace River, nothing less than a daily mail service will be tolerated. A new post office, to be located at a point ten miles west of Edson, on the main northern, settlers living here now have to go nine miles for their mail.

"People in this country," said one of the settlers to your correspondent, "are too busy to go nine miles for their mail."

District Self Sustaining.

The country around Edson is without doubt the most self-sustaining district in the province of Alberta. The people produce almost everything they need, but their groceries and dairy products, wheat, oats, barley, pork, beef, live stock and lumber are the staple resources. Mixed farming prevails throughout the entire district. Every farmer has from 20 to 40 head of cattle, as well as a considerable stock of pigs and horses. Cattle, grain and fodies are grown in enormous quantities. Such a thing as a scarcity of food for live stock would be an unknown thing in this country. There is no worry about markets. Pork, beef and grain are all readily disposed of to the army of incoming settlers at better prices than prevail in Edmonton. Building material of every description is abundant and obtained at low prices. The lumber combine does not kind the lumber here. All kinds of dressed lumber and dimension stock is manufactured in the district and sold at reasonable prices. Dressed spruce sells for \$10 and dimension at \$12 per thousand feet. Pine farmers here have logs and lumber of the best quality, which cost \$250 per thousand for sawing. Material of the best quality, abundant and nowhere in the whole province of Alberta, and which is so well fenced. The fences are built of tamarac posts and dry spruce poles, which makes a fence that is neat, safe for stock and substantial. Almost every farmer has his farm surrounded by a strong fence of this kind, forming a suitable yard for stock. His house and garden are similarly protected by a neat, strong fence.

Settlement Only Four Years Old.

Though the district is only four years old, rapid and successful development has taken place. The traveller is impressed with the air of thriftiness and progress that is everywhere. The settlers are mostly Ontario farmers, who have skillful and thorough knowledge of practical farming and have quickly adapted their methods to the conditions that obtain in this country. They have systematically gone into diversified farming and for the permanent improvement of the district. They have the four-year-old settlement bears the likeness of a well settled country 20 years ago. Many of the houses are elegant frame structures, built in cottage and rustic style. A great number are built of large dry spruce logs, which are cut so that they are healthy and comfortable to live in and solid and picturesque in appearance. One of the most beautiful houses in the district is a large house of unique architectural design and tasteful decoration, the jutting roof, elaborate corners, well-lighted windows, creating an effect that is at once handsome and original.

The stables are generally larger than those in other parts of Alberta, as the farmers here calculate to house most of their cattle during the winter. Considerable of the grain is stacked in the fields, but in every town yard there is a well equipped combination of grain and hay stacks to secure a handy supply of fodder for the farm stock during the winter.

I have not met one gloomy, dissatisfied or back-biting farmer in the district. All have done well. The farmer told me he had earned eighteen

years on the Manitoulin Island. At the end of that time he left there, after securing up everything, worth about \$600. He came to Northern Alberta and finally settled in the Edson district less than four years ago and today is worth \$7500.

Settlers Paving In.

Settlers are coming in fast. But for the summer months have been local and applications made to the local land agent at the rate of ten a month. This represents, but a part of the number who have filed, as the majority of Kootenayites lie in the Edmonton office.

Fuel and water are abundant everywhere. Coal is found along the Peace River. Coal is, however, not used in the district. There is plenty of peat, dry tamarac and spruce wood. Water is abundant at a depth of two feet while many wells are 50 and 60 feet to obtain a constant supply.

The soil, like all the soil of Northern Alberta, is the deep black humus laid down on the clay and underlaid since it was formed by any geological agency. The soil is virgin soil in a double sense. It is virgin soil because its fertility has never been impoverished by cropping, and again, because it is the original rich vegetable deposit that was laid down in recent geological time and has not suffered even slightly from erosion.

The soil in the Edson district gives the proper property for the circulation of moisture for evaporation or absorption. As a result it is warmer and earlier soil crops ripen earlier than in the other soils of the south. In addition the abundance of sand renders the soil friable and causes it to clean off the most labor and ploughshare, keeping them light and easy to handle.

Road Improvement.

Hitherto the district has been comparatively neglected for want of proper roads. The trails are alright in dry weather, but during a protracted season of rain they become impassable in the low places for want of drainage. A good turnpiked road is being built from Morrisville north to Clyde and by the end of the fall a turnpiked road will be built through to within four miles of the Peace River.

The work from Morrisville north is under the supervision of A. Arnold. Mr. A. G. Gibson, of Edson, who has had a wide experience in road building in Ontario, has charge of the work from Clyde westward. Both these roads are being built by the province.

Awaiting Coming of Railway.

The people of this district are anxiously awaiting the coming of the railway line, and the construction of a telegraph line. The C. N. R. is already surveyed through the district passing to the north of the Clyde and on to Athabasca Landing. With the advent of the railway and the telephone the district will have all the essential conveniences and advantages of a modern and prosperous community.

The improved land of the district is rated at \$15 to \$20 per acre and as soon as the railway is built through a sharp advance will take place. In the cutting portions of the district a considerable quantity of land is held by the C. P. R. and the Elk Park Land Company, which company has purchased the greater part of the C. P. R. grant in this district. Neither of these corporations are in a hurry to sell except at prices equal to the best improved land. Such a policy is resented with disfavor by the settlers, so, situated to quickly return to the continuous upswing of the country.

The average under crop on each farm varies from 25 to 40 acres. The largest farmers in the district are the Edson brothers. They have 140 acres this year, 125 acres of which is oats. Eleven acres of this crop is equivalent to 50 bushels to the acre. Speaking of the oats, Mr. Edson

STRATHCONA NEWS

LOCALS.

Work was begun this morning on the new bridge over the Strathcona railway station. The platform will be extended the full width between the tracks and the station and afford much greater accommodation than the present one affords.

The postponed meeting of the Strathcona Board of Trade again fell through last night, these being no one present except the secretary. As the business of importance is to come up at present it is improbable that no further attempt will be made to hold a meeting before next month.

A large number of delegates to the Liberal convention tomorrow went to Calgary this morning and many others are expected to go down in the afternoon. The delegates had a special car this morning which was duly packed. Among those going down this morning were Charles May, J. E. Leeder, Dr. Whitley, John McDougall, W. R. McGeorge, J. H. Haynes, Robert Ritchie, Strathcona; Frank Walker, Fort Saskatchewan and many others prominent men of the party.

Mr. Justice Beck was a passenger to the south this morning from Strathcona. A large number of Strathcona teachers will attend the convention in Edmonton.

"Edison never had a better crop in five years," W. G. Baldwin has 30 acres of oats which he declares are first class. William Trench has 300 bushels of fourteen acres in dry weather and one of Albert McGee stated he could not desire a better crop of barley and oats than he has this year. W. N. Garrison who has lived four years at Edson said he never saw a better crop of oats than he has this year.

"I had twice as much grain as I could easily get rid of it," said J. A. Gibson who farms 500 acres. He has a large crop which he regards as one of the most satisfactory he has ever raised here or in Ontario. He has lately purchased a herd of pure-bred Herefords for his ranch.

Stock Does Well.

The cattle in the district have done well this year. The grass here has been splendid. Nowhere have I seen such tall and luxuriant grass. "Oats are going through the turnip strip south of here," said Mr. Tracey. "We never see any hay that the people here really can't buy."

The story of the Edson district is a story of success, progress and improvement which has been the lot of every farmer who has settled in the district. In addition to the foregoing many others could be cited whose success in a no way less pronounced. Among those that may be mentioned in this regard are Messrs. Doyle, J. Lindacher, Jas. W. Shutt, Alfred Parson, Hugh Knott and A. Chalmers. They are all well known with the easy story of success and all have a good word for the country.

Strike Ends on Big Four.

Columbus, Oct. 21.—The Big Four strike is settled. The men resumed work pending an investigation into the Yardmaster Collins' case. The Year's Great 21—Two men were arrested at Niagara Falls for having explosives in their possession, and who are supposed to have blown up the Royal Bank at Chippewy, were again sentenced by Judge Wells. Harding received eighteen months in Central Penitentiary, and Arquette three months in jail.

Grain Blockade at Moose Jaw.

Moose Jaw, Oct. 22.—There is a grain blockade here, and no cars are in sight.

May Not Go to Jury.

New York, Oct. 21.—Supreme Court Justice Swayne declined a motion made by counsel for the plaintiff in the suit for divorce brought by Mrs. C. Wood. Plaintiff against United States Senator Thomas Platt, for a jury trial. Justice Swayne holds that the only issue raised by the plaintiff is whether the plaintiff was married to the defendant and that there is no authority for admitting such an issue to a jury.

THE OVEN IS THE FEATURE

The cook who demands a good oven will get the best results from using one of our Cookstoves. We cordially invite your inspection.

A LONG-WEARING SOAP.

The unusual durability of Royal Crown Laundry Soap is one of the first things remarked upon by a new user. The majority of laundry soaps, you know from experience, soften very easily—waste away quickly. Royal Crown is a firmer, more compressed soap—six bars of which will do more and better work than eight bars of ordinary laundry soap.

Same price, but extraordinary value.
Made from a special formula for the hard water of this country.

MADE ONLY BY THE
ROYAL CROWN, Limited - - - WINNIPEG
The wrappers are valuable—save them.

ROYAL CROWN SOAP

ENGLAND HAS FINEST TRAIN IN EUROPE.

Marks New Departure in British Railroad Methods. Refreshments in Dining Car.

London, Oct. 21.—What is unquestionably the finest railway train in Great Britain has just been placed upon the London & Northwestern Railway. The total cost of the train, which is in three sections of eight cars each, was something over \$500,000.

Heretofore the luxury which characterizes this train, or rather series of trains, has been confined to the royal "special" train, which has been placed at the service of King Edward and his immediate family. Nothing approaching it has ever before been attempted even for the use of peers of the realm. But the comfortable traveling, with his buttonless pocket and free spending hand has encouraged the railway to try costly innovations. Carle Blanche was given to the car builders and the result is what the English declare to be the "finest train in Europe."

The new train de luxe runs from Euston station, London, to the Riverside station, Liverpool, and back again. Its first trip was made in connection with the new giant Canadian turbine, the Lusitania.

Although the new train has been built along English lines, with the compartments, shuttles on a general corridor, an attempt has been made to straddle the fence, to speak. For instance, the first-class carriage is the first in England to embody the swinging chair, such as are seen in the Pullman parlor cars in America.

In the dining car also the American example is followed closely. Such luxuries for England as real Manhattan cocktails, mint juleps and gin-fizzes are ready to hand. All the cars—first, second and third class—are lighted by electricity and an electric push button, by which an attendant may be summoned, is within the reach of every passenger.

CANADIAN GRAIN GOOD.

Chicago, Ill., Oct. 22.—The Chicago Tribune today does justice to the Canadian Northwest in the following comments: "Winning receipts of wheat yesterday were a revelation to the bulk who have been looking for a decreasing movement of grain wheat in Canada. Arrivals were 200 cars against 220 cars on the corresponding day last year. The grain was excellent, making it clear that some of the crops, who returned from Manitoba a few weeks ago mouthfuling laudatory predictions of the feasible quality of the bulk of the wheat, should have taken a second look."

Buried by Twin Brother.

Toronto, Oct. 21.—A unique funeral took place to-day, where Rev. Father John McKeown, of Toronto, who died in Montreal Saturday, was buried, the officiating clergyman being his twin brother, Rev. Patrick McKeown, chaplain of Providence. Thirty priests attended the service.

Japan Will Restrict Hawaiian Emigration.

Vancouver, Oct. 22.—According to private advices received here, the Japanese government has begun an investigation into the methods of some of the more unscrupulous of the Japanese emigration companies, and a regulation has been made whereby emigration companies must deposit \$25,000 as security for good behavior, which has forced six of the companies out of business. It is expected by local Japanese that several other companies will be forced to quit. Local information is to the effect that the Japanese government has also decided to restrict in so far as possible the emigration of Japanese from Hawaii to British Columbia. No more will it be possible for Japanese in the islands to charter Komerits for Indians and send them with Japanese to be dumped here, and new regulations, which will shortly be issued by the Japanese government, restricting the number of those leaving Hawaii to 30 per month, of whom eighteen must be men. How Japan is to enforce this regulation is not known.

Toronto Police Arrested Ghost. Toronto, Ont., October 21.—Based on Spiritualist meeting on Balmgreet street last night furnished some lively scenes ending in a free fight and capture of a ghost who turned out to be Rev. Elizabeth Howland, an American lady about 36 years of age.

At the time the ghost appeared she was afflicted only in flimsy gauze and the police permitted her to retire and don other garments.

She was accompanied by her husband, Rev. Clarence C. Howland. Both men describe themselves as ministers of the gospel of spiritualism.

The police were attacked by some of the Spiritualists' followers, but succeeded in overpowering the priestess to No. 3 station, where they were charged with fraud, being released at midnight on \$500 bail.

APPEAL DISMISSED.

Before Judge Harvey this morning, the appeal of the C.P.R. against their city assessment was dismissed. The point in dispute related to property between the company's freight sheds and the top of the hill in the south of the city, on which the C.P.R. filed plans two years ago. The company claimed their exemption under the Railway Assessment Act, which provides for a tax-free value of \$1,000 per mile on rights of way, etc. The city contended that as this property was not continuous and was not used at present for railway purposes it was subject to the ordinary taxation. In this contention they were sustained, and the appeal dismissed.

PRINTING BINDING

The Bulletin Press solicits the printing of all kinds of forms required throughout the province. We have the largest and most complete plant in the west and nothing is too large or too small for us.

Blank Books and Loose Leaf Binders made to order to any pattern.

We can supply Loose Leaf forms of any system.

Do not send your orders east till you give the Bulletin Press an opportunity to go into the matter with you.

The Bulletin Press is the only office in the west that uses new type for every piece of work, so you are sure of having good results. For large work you do not have to wait, but complete proofs are submitted at once.

When in need of any printing or binding write us and we will submit estimates and designs

DRISCOLL TO MEET ATTELL.

New York, Oct. 21.—The Attell, for weight champion, will have a chance to risk his title to gain world's honors next January. Jim Driscoll, the champion English featherweight holds a \$25,000 purse for the express purpose of meeting the world champion. Driscoll won his title by knocking out Joe Barker at the annual meeting of the Athletic Union in Chicago, a match which was the first time a featherweight champion has been defeated by a heavier weight. Besides losing Barker, Driscoll has cleaned them all up on the outside, including Spike Robinson, who was in this country last year, and surprised the sporting public by defeating Tom Murphy at Philadelphia. He is easily the best featherweight boxer ever produced in England, and his battle with Attehl, which will probably take place at Los Angeles, will be a contest of tremendous interest.

BIG BETTING PROPOSITION.

Pittsburg, Pa., Oct. 21.—Shad Gilliam, a Pittsburg sporting man, made a fortune on the baseball series between Chicago and Detroit, for the world's champion at the Auditorium in Chicago, a match which was the first time a featherweight champion has been defeated by a heavier weight. Besides losing Barker, Driscoll has cleaned them all up on the outside, including Spike Robinson, who was in this country last year, and surprised the sporting public by defeating Tom Murphy at Philadelphia. He is easily the best featherweight boxer ever produced in England, and his battle with Attehl, which will probably take place at Los Angeles, will be a contest of tremendous interest.

ANOTHER LEAGUE OUTLAWED.

Cincinnati, Oct. 21.—The California State League was declared an outlaw organization today by the National Baseball Commission. The commission also held that all players now with the California State League who have "jumped" their contracts with national agreement clubs are forever ineligible to participate in any game played by the national agreement club, and that all players who are now with California League clubs who are not members of the national agreement club, and who have failed to report are outlawed.

WANDERERS ORGANIZE.

Montreal, Oct. 21.—The annual meeting of the Wanderer Hockey club was held at the Windsor tonight, but before the election of officers there was little business transacted, or little of interest announced. The meeting was, however, marked by the retirement from the active list of officers of two well-known figures in the hockey world, Jim Strachan and Bob Allen, who have been the club's successful career. Both were held honorary officers of the club. Eric Ross, president, was elected captain for next year. No announcement was made regarding new players to be given out next year. It is expected that the club is building on getting it from from Brandon, and also securing a star local player from Victoria Stars. It is stated that the plan of the Wanderers is to have Patrick will have to be filled before the opening of the season, or the club will be in a bad way. The officers elected are: Hon. patron, Geo. Hodge, sen.; hon. president, J. Strachan; hon. vice-president, H. Allen; president, W. Jennings; vice-president, T. Hodge; secretary, T. Strachan; treasurer, E. Ross; executive committee, C. W. Blackford, H. R. Stevenson, F. Strachan, and H. Watson.

HAVE LAUNDED ROY TAYLOR.

Ottawa, Oct. 21.—A Montreal man, who happens to be in close touch with the hockey teams of the metropolis and who was in Ottawa yesterday on business states that reports to the effect that the Wanderers did not have a team this winter are not worth the paper they have been printed on, and that the Stanley Cup holders will start out for the opening game with one of the greatest teams that has ever stepped on ice. It is an authority for the statement that the Wanderers held a shareholders meeting last Friday evening, at which final arrangements were made to bring Arthur Ross back from Brandon and play the Stanley Cup holders, King George, Frank Glass, Eric Ross, and Ernie Johnston have signed for the Wanderers. The team, while it is said that Lester Patrick is returning to Montreal for the winter and that he will again be seen at points for the wearers of red and blue, Patrick is now in British Columbia, but the Wanderers are making strong efforts to bring him back for the season.

LONGBOAT AND SHRUB.

Toronto, Oct. 21.—Wrangling between Longboat and Shrub, supporters, as to the live nature of the respective runners, has reached a stage which is becoming extremely tiresome, and a scheme has been suggested whereby the question of supremacy may be settled for good. The suggestion is to have the two runners cover the same course on the same afternoon the men to cover it in the fastest time but to declare victor. The runners will start apart, and as they are both men and as no prize is offered or prize money received, it is thought there will be no objection from the A.A.U. The latter body has not formally dealt with the matter as yet, but it is not expected that any difficulty will be encountered in this respect. As Longboat claims to be the challenged man he reserves the right to name the conditions and prefer a race from Oakville to the corner of Jordan and King streets in this city, a distance of 22 miles.

MARLBOROUGH-SAINT TEAM.

Toronto, Oct. 21.—At a meeting held last night at the English Club House the St. George's and Marlboro Hockey Clubs decided to amalgamate, and form a new club to be called the Toronto Hockey Club. The club will play a senior team in the O.H.A., and are amongst the best players in the city. The following officers were elected: Patron, A. F. Webster and John Bartle; Hon. President, J. R. Burns; First Vice-President, R. E. Moody; Second Vice-President, H. P. Jones; Treasurer, Chas. S. Morrow; Captain, Bert Birmingham; Manager, Bert Short.

JAKE STAHL TRADED.

Chicago, Ill., Oct. 21.—Garland Stahl, formerly first baseman and manager of the Washington American team, has been traded to the Boston American club for Fredrick Patrick, infielder and utility player. For refusing to report to the Washington club after his contract had been bought by the Washington club, Stahl is not eligible to play in the league until traded. It is reported that Boston intends to trade Stahl to New York for Lapeere.

POOL TOURNAMENT.

The pool tournament at the Seneca still continues successfully. The latest results are: E. Johnson at 2 defeated O. McKinley at 65. Score 7 to 65. D. P. Hurrell at 50 defeated M. E. H. at 75. Score 90 to 65. C. Somers at 120 defeated J. R. McHenry at 55. Score 120 to 55. A. Kay at 100 defeated Frank Scott at 50. Score 100 to 50. N. Gineux at 50 defeated A. G. Frank at 75. Score 50 to 75. E. Johnson's game will be W. H. Schofield at 65 and F. McKenney at 70. A. Kay at 25 and Thomas Stevens at 50. G. J. Long at 50 and H. D. Kelly at 70. E. J. at 50 and F. L. Brinson at 70.

SPORT BRIEFS.

St. Louis National Amateur defeated St. Louis Americans 2 to 2, and thereby won the post-season series and championship of St. Louis. The fastest sprinter in Canada is Bobby Kelle who holds the record for the 100 yard dash at 8.4.

Miss Jessie Fletcher, the famous English, Canadian, or amateur who holds the record for 100 yards, and who has again equalled all previous records for fair swimmers. At Leicester she was first in the 100 yards open scratch race, the 100 yards being accomplished in 1:41.00. In 200 yards, Smith, of Bradford, took second place.

Alfred Shrubbs went to T. C. Plankman, of Toronto, or amateur who holds the record for 100 yards, and who has again equalled all previous records for fair swimmers. At Leicester she was first in the 100 yards open scratch race, the 100 yards being accomplished in 1:41.00. In 200 yards, Smith, of Bradford, took second place.

President Wagner of the Tigers (Detroit) gave Jennings the manager a personal gift of \$1,000.

YOUNG TEDDY HURT.

Cambridge, Mass., Oct. 21.—Theodore H. H. who was taken and sent to the Harvard second team's game with Phillips-Ester last Saturday on account of an injury, was found today to be doing, probably water on the knee. This injury will probably keep him out of football for at least two weeks. His absence from the second team will be noticed, for he has been playing a good game at end.

MARSH TO MEET SHRUBB.

Winnipeg, Man., Oct. 21.—John D. Marsh, the St. Norbert runner, who entered the professional ranks by competing against a horse at Brandon on Saturday has arranged to meet Shrubbs, the champion distance runner now in Winnipeg. Marsh did not have a team this winter are not worth the paper they have been printed on, and that the Stanley Cup holders will start out for the opening game with one of the greatest teams that has ever stepped on ice. It is an authority for the statement that the Wanderers held a shareholders meeting last Friday evening, at which final arrangements were made to bring Arthur Ross back from Brandon and play the Stanley Cup holders, King George, Frank Glass, Eric Ross, and Ernie Johnston have signed for the Wanderers. The team, while it is said that Lester Patrick is returning to Montreal for the winter and that he will again be seen at points for the wearers of red and blue, Patrick is now in British Columbia, but the Wanderers are making strong efforts to bring him back for the season.

For the Bennett Cup.

St. Louis, Mo., Oct. 21.—The local hockey entered in the second international race for the Bennett cup, now expect to land somewhere in Canada is the hope of each center. The French hockey team, now in Canada, is the hope of each center. The French hockey team, now in Canada, is the hope of each center. The French hockey team, now in Canada, is the hope of each center.

The Retirement of Dreyfus.

Paris, Oct. 21.—Major Alfred Dreyfus, whose retirement from active service from the army on the ground of ill health was announced last night, is now 60 years of age. He has been in the army since 1876, and has been in the army since 1876, and has been in the army since 1876.
